EFFORT TO BOOM STOCKS
ENDS IN LOWER PRICES.TRADERS DISAPPOINTED IN
MONEY MARKET.Advance in Copper and Sugar
Strengthen Those Industrials
—Bonds Easier.

New York, Dec. 4.—There was another attempt to boom the prices of stocks this morning, but it did not succeed, and the market soon became weak. Final prices were considerably lower than last night. The principal part of the day's business was the trading in copper, which was completed by the end of the first hour, and there was no further activity until an active selling movement developed in the call loan market, but the developments of the day freed the market of calls, and in money and bonds the market was quiet.

ADVANCE CHECKED. They then sold stock at a lower level of prices for the simple reason that they were unable to advance prices without meeting large calls to resist them. The advance in copper and sugar, which was the only advance in the market, was not enough to offset the loss of the call loan market, and the market was left in a weak position.

As the local traders, however, do not make much of the advance in copper and sugar, the market is not known to the public, but there is no evidence that they are doing much. The market is still in a weak position, and the advance in copper and sugar is not enough to offset the loss of the call loan market.

However, the bank has lost gold to the extent of about \$1,000,000 during the week. The bank has lost gold to the extent of about \$1,000,000 during the week. The bank has lost gold to the extent of about \$1,000,000 during the week.

WHEAT TRADING IS DULL.
BUT PRICES TEND HIGHER.NEWS FROM ARGENTINA DIS-
TURNS SHORTS.Only Moderate Business in Corn—
Demand for Cash Oats Sup-
ports That Market.

Chicago, Dec. 4.—Trading in wheat was extremely dull at times today, but prices tended higher, while corn was up 1/8 and oats 1/4. The market was supported by a demand for cash oats.

Reports of heavy rains in Argentina, causing a delay in harvesting, caused shorts in wheat. The market was supported by a demand for cash oats.

Trading in corn was of but moderate volume and was confined principally to local interests. The market was supported by a demand for cash oats.

THE PRINCIPAL FEATURE OF THE DAY was the excellent cash demand, which was the main support to the market. The market was supported by a demand for cash oats.

Provisions ruled strong throughout the day. Higher prices at the yards being demanded for a firm opening, and a good demand for a firm opening, and a good demand for a firm opening.
